

Instructions: Log Rack Cover

Installation

Slip your Log Rack Cover over the top of your log rack then pull the cover down on all four corners.

The front of the cover opens for loading and unloading and is secured with hook and loop tabs and buckles. Opening this panel may help you to get the cover correctly positioned onto your log-rack. Note that there is one opening on our four foot cover and two openings on our eight foot cover.

Once you have the cover in place, close the click-it buckles located on the bottom corners. These buckles will keep the cover closed in windy conditions.

Cleaning and Care

Clean your cover with a soft brush and luke-warm water. DO NOT USE SOAP as it may remove the protective coatings added by the factory. Air dry.

eight foot cover

four foot cover

Storage

To avoid any possibility of mildew be sure your cover is completely dry before you store it in an enclosed area for a long period.

Three Year Warranty

This cover is factory warranted for workmanship and materials for three years after purchase.
